This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

2. Working Hours (Revision Example 1)

Core hours are 09:00–16:00. Flexible schedules are allowed. Remote employees must be reachable during core hours. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

3. Leave Policy (Revision Example 1)

Employees receive 25 annual vacation days, 10 public holidays, unlimited sick leave with medical documentation after three consecutive days, and 16 weeks parental leave. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

4. Information Security (Revision Example 1)

Multi-factor authentication is mandatory. Passwords must be at least 16 characters. USB devices require approval. Incidents must be reported within one hour. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

5. Data Classification (Revision Example 1)

Documents are classified as Public, Internal, Confidential, or Restricted. Restricted data may never be copied to personal devices. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

6. AI Usage Policy (Revision Example 1)

Only approved AI systems may process company information. Customer PII must never be entered into public AI tools. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

7. Physical Security (Revision Example 1)

Visitors require badges and escorts. Access cards must never be shared. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

8. Travel Policy (Revision Example 1)

Flights over six hours may be booked in premium economy. Expenses require receipts within 10 business days. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

9. Procurement (Revision Example 1)

Purchases above €5,000 require manager approval; above €25,000 require finance approval. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

10. Business Continuity (Revision Example 1)

Critical services require RTO of 4 hours and RPO of 30 minutes. Annual disaster recovery exercises are mandatory. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

11. Software Development (Revision Example 1)

All production code requires peer review, automated testing, dependency scanning, and security review before deployment. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

12. Incident Response (Revision Example 1)

Severity 1 incidents require executive notification within 30 minutes and a post-incident report within five business days. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

13. Acceptable Use (Revision Example 1)

Company devices are for business purposes. Limited personal use is allowed if it does not interfere with work. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

14. Compliance (Revision Example 1)

Employees must complete annual security, privacy, and ethics training. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes.

Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

15. Appendix (Revision Example 1)

Glossary: MFA, RTO, RPO, PII, Zero Trust, Least Privilege, SOC2, ISO 27001. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

1. Code of Conduct (Revision Example 2)

Employees must act professionally, avoid harassment, protect confidential information, report conflicts of interest, and comply with all applicable laws. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

2. Working Hours (Revision Example 2)

Core hours are 09:00–16:00. Flexible schedules are allowed. Remote employees must be reachable during core hours. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

3. Leave Policy (Revision Example 2)

Employees receive 25 annual vacation days, 10 public holidays, unlimited sick leave with medical documentation after three consecutive days, and 16 weeks parental leave. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

4. Information Security (Revision Example 2)

Multi-factor authentication is mandatory. Passwords must be at least 16 characters. USB devices require approval. Incidents must be reported within one hour. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting

workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

5. Data Classification (Revision Example 2)

Documents are classified as Public, Internal, Confidential, or Restricted. Restricted data may never be copied to personal devices. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

6. AI Usage Policy (Revision Example 2)

Only approved AI systems may process company information. Customer PII must never be entered into public AI tools. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

7. Physical Security (Revision Example 2)

Visitors require badges and escorts. Access cards must never be shared. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

8. Travel Policy (Revision Example 2)

Flights over six hours may be booked in premium economy. Expenses require receipts within 10 business days. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

9. Procurement (Revision Example 2)

Purchases above €5,000 require manager approval; above €25,000 require finance approval. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

10. Business Continuity (Revision Example 2)

Critical services require RTO of 4 hours and RPO of 30 minutes. Annual disaster recovery exercises are mandatory. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

11. Software Development (Revision Example 2)

All production code requires peer review, automated testing, dependency scanning, and security review before deployment. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

12. Incident Response (Revision Example 2)

Severity 1 incidents require executive notification within 30 minutes and a post-incident report within five business days. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

13. Acceptable Use (Revision Example 2)

Company devices are for business purposes. Limited personal use is allowed if it does not interfere with work. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk

scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

14. Compliance (Revision Example 2)

Employees must complete annual security, privacy, and ethics training. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

15. Appendix (Revision Example 2)

Glossary: MFA, RTO, RPO, PII, Zero Trust, Least Privilege, SOC2, ISO 27001. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

1. Code of Conduct (Revision Example 3)

Employees must act professionally, avoid harassment, protect confidential information, report conflicts of interest, and comply with all applicable laws. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

2. Working Hours (Revision Example 3)

Core hours are 09:00–16:00. Flexible schedules are allowed. Remote employees must be reachable during core hours. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

3. Leave Policy (Revision Example 3)

Employees receive 25 annual vacation days, 10 public holidays, unlimited sick leave with medical documentation after three consecutive days, and 16 weeks parental leave. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios,

and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

4. Information Security (Revision Example 3)

Multi-factor authentication is mandatory. Passwords must be at least 16 characters. USB devices require approval. Incidents must be reported within one hour. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

5. Data Classification (Revision Example 3)

Documents are classified as Public, Internal, Confidential, or Restricted. Restricted data may never be copied to personal devices. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

6. AI Usage Policy (Revision Example 3)

Only approved AI systems may process company information. Customer PII must never be entered into public AI tools. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

7. Physical Security (Revision Example 3)

Visitors require badges and escorts. Access cards must never be shared. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

8. Travel Policy (Revision Example 3)

Flights over six hours may be booked in premium economy. Expenses require receipts within 10 business days. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

9. Procurement (Revision Example 3)

Purchases above €5,000 require manager approval; above €25,000 require finance approval. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

10. Business Continuity (Revision Example 3)

Critical services require RTO of 4 hours and RPO of 30 minutes. Annual disaster recovery exercises are mandatory. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

11. Software Development (Revision Example 3)

All production code requires peer review, automated testing, dependency scanning, and security review before deployment. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

12. Incident Response (Revision Example 3)

Severity 1 incidents require executive notification within 30 minutes and a post-incident report within five business days. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards,

compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

13. Acceptable Use (Revision Example 3)

Company devices are for business purposes. Limited personal use is allowed if it does not interfere with work. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

14. Compliance (Revision Example 3)

Employees must complete annual security, privacy, and ethics training. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

15. Appendix (Revision Example 3)

Glossary: MFA, RTO, RPO, PII, Zero Trust, Least Privilege, SOC2, ISO 27001. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

1. Code of Conduct (Revision Example 4)

Employees must act professionally, avoid harassment, protect confidential information, report conflicts of interest, and comply with all applicable laws. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

2. Working Hours (Revision Example 4)

Core hours are 09:00–16:00. Flexible schedules are allowed. Remote employees must be reachable during core hours. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are

responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

3. Leave Policy (Revision Example 4)

Employees receive 25 annual vacation days, 10 public holidays, unlimited sick leave with medical documentation after three consecutive days, and 16 weeks parental leave. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

4. Information Security (Revision Example 4)

Multi-factor authentication is mandatory. Passwords must be at least 16 characters. USB devices require approval. Incidents must be reported within one hour. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

5. Data Classification (Revision Example 4)

Documents are classified as Public, Internal, Confidential, or Restricted. Restricted data may never be copied to personal devices. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

6. AI Usage Policy (Revision Example 4)

Only approved AI systems may process company information. Customer PII must never be entered into public AI tools. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

7. Physical Security (Revision Example 4)

Visitors require badges and escorts. Access cards must never be shared. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

8. Travel Policy (Revision Example 4)

Flights over six hours may be booked in premium economy. Expenses require receipts within 10 business days. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

9. Procurement (Revision Example 4)

Purchases above €5,000 require manager approval; above €25,000 require finance approval. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

10. Business Continuity (Revision Example 4)

Critical services require RTO of 4 hours and RPO of 30 minutes. Annual disaster recovery exercises are mandatory. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

11. Software Development (Revision Example 4)

All production code requires peer review, automated testing, dependency scanning, and security review before deployment. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards,

compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

12. Incident Response (Revision Example 4)

Severity 1 incidents require executive notification within 30 minutes and a post-incident report within five business days. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

13. Acceptable Use (Revision Example 4)

Company devices are for business purposes. Limited personal use is allowed if it does not interfere with work. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

14. Compliance (Revision Example 4)

Employees must complete annual security, privacy, and ethics training. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

15. Appendix (Revision Example 4)

Glossary: MFA, RTO, RPO, PII, Zero Trust, Least Privilege, SOC2, ISO 27001. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

1. Code of Conduct (Revision Example 5)

Employees must act professionally, avoid harassment, protect confidential information, report conflicts of interest, and comply with all applicable laws. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation

notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

2. Working Hours (Revision Example 5)

Core hours are 09:00–16:00. Flexible schedules are allowed. Remote employees must be reachable during core hours. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

3. Leave Policy (Revision Example 5)

Employees receive 25 annual vacation days, 10 public holidays, unlimited sick leave with medical documentation after three consecutive days, and 16 weeks parental leave. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

4. Information Security (Revision Example 5)

Multi-factor authentication is mandatory. Passwords must be at least 16 characters. USB devices require approval. Incidents must be reported within one hour. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

5. Data Classification (Revision Example 5)

Documents are classified as Public, Internal, Confidential, or Restricted. Restricted data may never be copied to personal devices. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

6. AI Usage Policy (Revision Example 5)

Only approved AI systems may process company information. Customer PII must never be entered into public AI tools. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

7. Physical Security (Revision Example 5)

Visitors require badges and escorts. Access cards must never be shared. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

8. Travel Policy (Revision Example 5)

Flights over six hours may be booked in premium economy. Expenses require receipts within 10 business days. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

9. Procurement (Revision Example 5)

Purchases above €5,000 require manager approval; above €25,000 require finance approval. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

10. Business Continuity (Revision Example 5)

Critical services require RTO of 4 hours and RPO of 30 minutes. Annual disaster recovery exercises are mandatory. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards,

compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

11. Software Development (Revision Example 5)

All production code requires peer review, automated testing, dependency scanning, and security review before deployment. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

12. Incident Response (Revision Example 5)

Severity 1 incidents require executive notification within 30 minutes and a post-incident report within five business days. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

13. Acceptable Use (Revision Example 5)

Company devices are for business purposes. Limited personal use is allowed if it does not interfere with work. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

14. Compliance (Revision Example 5)

Employees must complete annual security, privacy, and ethics training. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

15. Appendix (Revision Example 5)

Glossary: MFA, RTO, RPO, PII, Zero Trust, Least Privilege, SOC2, ISO 27001. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance.

Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

1. Code of Conduct (Revision Example 6)

Employees must act professionally, avoid harassment, protect confidential information, report conflicts of interest, and comply with all applicable laws. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

2. Working Hours (Revision Example 6)

Core hours are 09:00–16:00. Flexible schedules are allowed. Remote employees must be reachable during core hours. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

3. Leave Policy (Revision Example 6)

Employees receive 25 annual vacation days, 10 public holidays, unlimited sick leave with medical documentation after three consecutive days, and 16 weeks parental leave. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes. Managers are responsible for ensuring compliance. Employees must acknowledge updates through the HR portal.

4. Information Security (Revision Example 6)

Multi-factor authentication is mandatory. Passwords must be at least 16 characters. USB devices require approval. Incidents must be reported within one hour. This section includes detailed operational guidance, responsibilities, exceptions, audit requirements, examples, reporting workflows, approval chains, documentation standards, compliance expectations, risk scenarios, and implementation notes.
